

STATE STREET®

I would like to thank the dedicated team of Insoft Engineering which has been working under my supervision in our project “Collateral/Securities Lending Data Warehouse Platform”. I think they were one of our most professional and creative teams from all our offshore locations. This team was skilled in Java and Oracle stack technologies, in JavaScript (ES6,ES7), NodeJS/ReactJS. It gives me pleasure to recommend this team to other customers in software development.

Dmitry Ochakovskiy,  
Vice-President  
State Street Corp.
